

JULY PROGRAM—KIMONO

Our July project will be the kimono from the Needlepoint Now March-April 2008 issue. The picture shows it in purples just to let you see it in another color scheme and on linen. Your stitching needs are listed in the issue. Please assemble your stretcher bars before you come if working on canvas. If you want to get started before the July meeting - go for it! This project is one we will have time to finish before Susan helps us finish a piece in January 09.

Remember the May/June issue has a second pattern for a kimono - if you prefer that style feel free to work on it in July. My goal is to have us enjoy stitching fun things this year with plenty of time to do the finishing with Susan's and Mimi's help.
